"Winterization" Programs

Dear Loyal Customer,

Enclosed is a winterization contract for the coming season. If you desire our services, please indicate the type of service and the approximate date you desire and drop it in the mail to us.

NOTE:

The addition of winter D-Iron (stain protector) may be added up to three weeks prior to closing. **DO NOT** wait until just prior to closing date before adding this chemical, it needs to be circulated while your filter is running.

If D-Iron is added and due to adverse conditions, we are unable to meet your selected schedule date, the D-Iron added is still sufficient. **Also, it is very important for you to have your water balanced prior to winterization at one of our retail locations.**

To help us use the proper chemicals to winterize your pool please take time to check the appropriate box indicating which type of sanitizing system you presently use.

Chlorine ____ indicate type: _____

Bromine _____

Baquacil _____

Salt Chlorine Generator _____

Ionizers _____

NEW **D-PHOS** is a specially formulated product to remove phosphates that build up over the summer. Phosphates promote algae growth. ☐ 1Qt. D-PHOS \$39.95

ATTENTION: New Blue Haven and Anthony & Sylvan Pool Owners or Any "New" Plastered Pools

It is extremely important during the first 3 years to control pH to prevent scaling on the pool surface. The pH must be in balance prior to closing. pH cannot be balanced at closing. Due to scheduling, we will have to close pool regardless of balance. We offer free water testing at our two store locations. pH can also rise during the winter months. Enclosed you will find services that we provide during the winter months to help control pH levels.

All accounts must be in balance before winterization can be scheduled.

PLEASE READ CLOSELY AND SEND BACK WITH ATTACHED CONTRACT!!!

SAFE-T-ZONE WINTERIZING KIT

FOR MESH-COVER POOLS ONLY

For Pools up to 30,000 gallons

Contains:

- A Phosphate Remover
- A Special Winterizing Algicide
- A Winterizing Float with Enzymes
- A Stain and Scale Preventer

WHY DO YOU NEED THIS SPECIAL
NON-CHLORINE WINTER KIT AS
PART OF YOUR WINTER PROGRAM?

MESH-COVERED POOLS ALLOW
ALGAE AND DEBRIS TO FILTER
THROUGH THE COVER ALL
WINTER AND THIS OFTEN
RESULTS IN A GREEN AND
CLOUDY POOL IN THE SPRING.

**"Off Season"
Preventative
Service/Inspection
Winter**

Winter Services:

"Back by Popular Demand"

Over the years it has come to our attention that it seems a lot of pools open up and have problems that require service parts, etc., and in some cases, they wait 1 to 3 weeks to get repaired and be able to use the pool. We have designed the following off season services and inspections to find and repair potential problems earlier, so you can open your pool and enjoy it in the spring.

Service 1 - Directional Valve Service:

Open all Jandy, Pentair Compool, or Hayward valves, clean and lubricate with magic lube. (No petroleum based lubricants used) Inspect o-rings and gaskets.

\$29.00 per valve _____
(Lubricant includes)

Service 2 - Heater Clean Service:

1. Clean burner tray
2. Clean orifices
3. Clean heat exchanger
4. Check gas pressure
5. Check all parts for service life

\$249.00 _____

Service 3 - Filter Tank Inspection:

DE Filter:

1. Dismantle filter tank
2. Thoroughly inspect filter grids for holes, tears, or broken grid supports
3. Check grid manifolds and air bleed systems
4. Check multiport valve / push-pull valve gasket

\$199.00 _____

Sand Filter:

1. Remove top dome or multiport valve
2. Inspect sand for estimate of service life
3. Check multiport valve gaskets / push-pull o-rings

\$199.00 _____

Cartridge Filter:

1. Dismantle filter tank
2. Thoroughly inspect cartridge/cartridges for service life
3. Check cartridge retainers for cracks, wear, and tension

\$199.00 _____

See other side for additional services

Service 4 - Pressure Test System for Small Leaks in Above Ground/ Underground Plumbing System:

1. Inlet and outlet of pump
2. All fittings above ground
2. Underground plumbing (except drain lines)

\$199.00_____

Service 5 - Filter Pump and Motor Inspection:

1. Perform amperage check on motor to detect possible problems such as internal windings going bad or bearings.
2. Check impeller, diffuser, volute, and pump housing of cracks and deterioration.

\$199.00_____

Service 6 - Pool Cleaners:

Polaris 380, 360, or and similar pressure cleaners can be tested on site. Robotic cleaners will be brought back to our shop for testing. (Please have these available)

1. Disassemble for inspection
2. Check water management system
3. Drive belts inspection
4. Debris entrapment bag

\$199.00_____

Service 7 - Auto Controls Inspection:

1. Check Valve actuator for proper rotation
2. Check outdoor control panel, spa side remote for proper function
3. Check indoor control panel for proper function (if available)

\$199.00_____

Service 8 - Salt Systems:

1. Check cell for wear and estimate service life
2. Clean cell with acid solution
3. Check control panel for proper function

\$199.00_____

The above rates are based on our normal hourly charge of \$155.00 per hour with no service call fee. If you pick 4 or more services you will receive a 20% discount. Due to these services being done in the off season, all payments will be due at the time of service. These services will be scheduled for December through March. Special pricing is available for multiple systems.

We appreciate your business and your interest in Sum-R-Fun Pool Products Inc. and look forward to helping you with your swimming pool needs.

- Mesh Cover Treatments
- pH & Alkalinity control
- Water Level Maintenance
- Water Bag / Tarp Cover Maintenance

We have designed three chemical treatment plans for the winter months to help minimize green water at the opening of your pool. Several mesh cover owners experienced very green water in the spring. They have had to add about \$600.00 in chemicals and countless hours backwashing to clear up the pool. We hope the following plans eliminate green water and backwashing procedures, so you can enjoy your pool from the start.

Plan A:

Price: \$ 475.00

During the weeks in late fall/winter and early spring, we will add a sufficient amount of chlorine or Baqua-Shock and algaecide to help maintain proper pool conditions. We will use our pumps to circulate the water to insure a complete chemical mixture. This plan offers maximum protection during mild winters.

Plan B:

Price: \$ 425.00

During early spring weeks, we will add sufficient amounts of chlorine or Baqua-Shock and algaecide to help maintain proper pool conditions. We will use our pumps to circulate the water to insure a complete chemical mixture. **(This plan works best if coupled with Plan C)**

Note: Algae can still be present in spring; however, it will be much better with these plans.

Below are additional services that can be used in conjunction with any of the above plans or as separate services.

Plan C:

Price: \$ 121.25

Safe-T-Zone Winterizing Kit. Specially designed winter chemical treatment for mesh covers added at closing. Decreases chance of algae growth by 80%.
(This kit is recommended with Plan B)

Plan D: Adjust water level if needed. Will bill accordingly at \$159.00 per hour.

Plan E: Check pH and Alkalinity and adjust accordingly. Chemicals and labor billed separately.
Highly Recommended Service for Plaster pools that are 3 years old or less. This service would be performed during the winter weeks and during early spring.

Plan F: Tarp Waterbag Cover service: Replace bad water bags. Pump water off cover. Material and labor billed separately. This service would be performed during the week of December and March.

If you are interested in one of these plans, please check the plan(s) you desire, sign the bottom of this page and return to our office with deposit.

NOTE: A 50% deposit is required upon return of this form for Plan A & B.

Scheduling Procedures

2025

Winterization Contract

Please fill out the "WEEK" that you prefer on the line provided and return your contract promptly keeping in mind the large number of pools we service. We will do our best to schedule you **within that week**. As always, our scheduling is based on a **"First Come, First Served Basis"**.

The day before the work is scheduled, you will be notified by phone. Upon receiving your contract and **only** if we find that the week you have requested is already filled, you will be contacted to schedule for our next available week.

Preferred Week: _____
(month) (week date- Mon.-Fri.)

Daytime Phone # (_____) _____
(phone) (contact name)

Please Check One of the Following Choices:

Complete Winterization

\$675.00 _____

Services Include:

-Light Vacuuming of Pool (up to ½ hour)

-Lowering Water Levels

-Winterizing All Equipment

-Blowing Out All Lines

-Extra Lines are an additional charge

-Additional charges applicable (see below)

-Plugging Lines with Customer's plugs

-Adding Winterization Chemicals

(sufficient for a 600 Sq. Ft. pool)

-Placing Customer's One-Piece Cover on Pool

Partial Winterization

\$625.00 _____

This service includes all of the above except customer will install their own cover on the pool.

-Additional charges applicable (see below)

Blow Lines Only

\$375.00 _____

Services Include:

-Blowing Lines ONLY – Additional charges applicable (see below)

-Note: This service does not include cleaning of filter, vacuuming of pool or chemicals.

We will do pool in "as is" condition. This service is only to protect equipment and lines from freezing. We will lower water levels.

Additional Charges: (Please check those pertaining to your pool) **These are not optional**

Two Piece Cover with Cable Hookup

\$99.00

\$50.00

Fill Lines and/or Fountains (priced individually)

Special Note:

We do not install new covers unless purchased from Sum-R-Fun. Larger pools will require additional chemicals which will result in an additional \$25.00 charge. Additional charges for various systems and/or solar blankets are listed above.

Total Cost: _____

Due to local ordinances and prevailing insurance codes, absolutely no motors will be disconnected, unless they are fitted with a plug and socket connection. There will be no exceptions.

"Please See Reverse Side"

GENERAL GUIDLINES

We will make every effort to complete requested service as close to the desired date as possible. Work is scheduled on a first-come, first-served basis. We assume no responsibility for delays beyond our control. You will be called 24 hours prior to scheduled date. If our crew arrives at the pool site and the gate is locked, it will be the customer's responsibility to call our office for rescheduling of work and **there will be a service call charge**. Any additional repairs, chemicals, or replacement parts necessary will be billed in addition to requested work.

In the event your pool has an abnormal amount of leaves and/or debris which entails extra time and labor to vacuum above the ½ hour that is normally allocated, an extra charge will be added to the original cost. If the pool is green upon our arrival or **if pH and alkalinity is out of balance**, it will be closed in "as is" condition.

Sum-R-Fun assumes no responsibility for the repair of used water bags which may collapse due to pin holes leaks or leaks of another nature after our departure. If Sum-R-Fun is called back to make repairs, the normal service, labor and/or parts charge will be added.

The procedures used during winterization completely evacuates all water from equipment and pool lines, thereby adverting any damage due to freezing. Any damage to pipes or equipment from harsh winter conditions, frost, rise and fall of ground, leaning equipment, etc. is beyond our control.

HOME OWNERS RESPONSIBILITY

With the exception of first year customers; it shall be the customer's responsibility to have their cover, winterizing plugs, and plastic bottle readily available.

Customer will provide storage space affording easy access for equipment. In the event such storage is not provided, equipment will be stacked neatly on the deck, at deep end of the pool. Because of our insurance regulation, we are not permitted and, therefore, will not carry equipment through living areas of the home. Insurance Regulation also forbid us to remove and install diving boards.

We are not responsible for winterization of any domestic water.

Also, it is the customers responsibility to have water in balance prior to our arrival. We have two locations that provide this analysis. If Baquacil is being used, please mark as indicated:

YES: _____.

TERMS

Acceptance of this request indicates customer's agreement to our terms. **A \$275.00 deposit is required upon return of this form.** If this request is cancelled for reasons beyond our control, the deposit will be either forfeited outright or a store credit issued at our discretion. Unless prior arrangements are made, payments for all services are due upon completion of work. A FINANCE CHARGE OF 1 ½ % PER MONTH WILL BE ASSESSED ON ALL OUTSTANDING BALANCES OVER 30 DAYS.

(Annual rate 18% per year).

Service rates are based on **\$2.75** per gallon of gas. If gas price increases more than 5%, a minor fuel surcharge may apply.

Additional Services

If you would like any additional services, supplies, or quotations, or if you have any special instructions, please list them below, and complete necessary forms supplied with this contract. ALL EXTENSIVE SERVICE MUST BE SCHEDULED THROUGH OUR OFFICE.

SEASONAL "PAID IN FULL" PLANS FOR 2026 AVAILABLE NOW
